Framework for **Modern Microschools.**

EMPOWER STUDENTS. BUILD LEGACY.
SOVEREIGN WEALTH ARCHITECTURE. POWERED BY SELF-DEFI.

DONOR & SPONSOR ONBOARDING

Support Schools with Full Transparency. Zero Custody. Total Accountability. | Powered by Self-Defi

WELCOME — A NEW WAY TO SUPPORT SCHOOLS

Thank you for choosing to support a school through the School Innovation Vault — a transparent, on-chain donation system that ensures every dollar is tracked, protected, and used responsibly. Unlike traditional school donations, this system lets you see every deposit, withdrawal, and spending decision in real time. You are not just donating — you are investing in visible, verifiable school improvement.

WHAT THE SCHOOL INNOVATION VAULT IS

The School Innovation Vault is a 2-of-3 multi-signature on-chain vault used to fund innovation, technology upgrades, campus improvements, community partnerships, and enrichment programs. Every transaction is public, providing unmatched transparency and accountability.

WHO CONTROLS THE VAULT (2-OF-3 MULTISIG)

The vault is governed by three signers: School Official, Independent Trustee, and Community Representative. Any spending requires approval from two of the three. No single person can spend funds, and SD Advisors holds zero keys.

HOW IT DIFFERS FROM THE GRADUATION VAULT

The Graduation Vault protects individual students with a 3-of-4 multisignature system and unlocks only at graduation. The School Innovation Vault supports the entire school, is not time-locked, and uses 2-of-3 multisignature governance for flexible but secure access.

HOW THE INNOVATION VAULT WORKS

- Donations are sent directly to the vault - All activity is visible on-chain - Withdrawals require 2-of-3 approvals - SD Advisors has zero custody or access This ensures flexible spending while preserving full transparency and accountability.

WHAT YOUR DONATION SUPPORTS

- Innovation and technology upgrades - Classroom and campus improvements - Enrichment programs for students and teachers - Community-based initiatives and partnerships Every dollar is transparent, traceable, and fully auditable.

WHY DONORS TRUST THIS VAULT

- Full transparency - Distributed multi-sig control - Permanent public record of all transactions - Community oversight - Zero custody by SD Advisors Donors can confirm how every donation is used, creating confidence and long-term trust.

ONGOING DONOR VISIBILITY

Donors can view total funds raised, transaction history, spending memos, approvals, and remaining balances at any time. Your support remains visible and verifiable forever.

CLOSING MESSAGE

The School Innovation Vault allows donors to support schools with confidence. You're not just funding improvements — you're helping build a transparent, future-ready educational ecosystem where accountability is automatic and impact is measurable.
