## DONOR & SPONSOR ONBOARDING — Student Impact Edition

Transparent. Trackable. Time-Locked. | Powered by Self-Defi

### WELCOME — THANK YOU FOR SUPPORTING A STUDENT

Your contribution becomes a permanent, traceable gift dedicated to the student's future. Every donation is protected inside a time-locked vault until graduation, ensuring it cannot be accessed early by anyone.

### WHAT A GRADUATION VAULT IS

A Graduation Vault is an individual, on-chain vault created for each student. It is secured by a 2-of-3 multisignature system with three signers: Parent/Student, School Official, and Independent Trustee. SD Advisory Group holds zero keys.

### HOW YOUR DONATION WORKS

- You select a student to support.
- You send your donation directly to their vault.
- The transaction is confirmed instantly on the blockchain.
- The vault balance updates automatically.
- Funds stay time-locked until graduation.

## **ZERO-CUSTODY BY SD ADVISORY GROUP**

SD Advisory Group provides the infrastructure only. We do not hold keys, do not store funds, and have zero control over the vault. Governance remains in the hands of the multi-sig signers.

## **24/7 TRANSPARENCY DASHBOARD**

Donors can view: - Vault balance - Transaction history - Time-lock status - Graduation countdown - Multi-sig configuration No logins are required.

## **WHAT YOUR DONATION IS**

- A permanent gift - Time-locked - Fully transparent - Recorded on-chain forever

## **WHAT YOUR DONATION IS NOT**

- It is not an investment product - It is not a savings account - It does not earn yield - It cannot be accessed early - It is never under SD custody

## **ONGOING DONOR VISIBILITY**

Your donation remains visible and auditable forever. You can track vault growth, confirm all deposits, and monitor the countdown to graduation anytime.
